

Praveen Yadav

Software Engineer (Go / Distributed System)

+91 6299121574 — monarchpraveen@gmail.com
in linkedin.com/in/pranumann github.com/pranumann

SUMMARY

Software Engineer specializing in backend systems, distributed architectures, and Generative AI applications, with experience in building scalable and production-grade solutions. Skilled in Golang, C++, Python, RESTful services, microservices, Docker, Kubernetes, and cloud-native development. Experienced in developing intelligent applications powered by LLMs, RAG pipelines, AI Agents, LangChain, and LangGraph, while maintaining a strong focus on performance, scalability, and software engineering best practices. Adept at solving complex technical challenges through efficient system design and modern engineering principles.

SKILLS

- **Programming Languages:** Golang, C/C++, Python
- **Backend Engineering:** REST APIs, FastAPI, Microservices, Distributed Systems, System Design
- **Artificial Intelligence & GenAI:** Large Language Models (LLMs), Retrieval-Augmented Generation (RAG), AI Agents, Generative AI, Prompt Engineering
- **AI Frameworks & Orchestration:** LangChain, LangGraph
- **AI Platforms & APIs:** OpenAI API, Google Gemini API, LLM Integration, AI Workflow Automation
- **Cloud & Infrastructure:** Docker, Kubernetes, AWS, Containerization
- **Blockchain:** Blockchain Development, Smart Contracts
- **Computer Science Fundamentals:** Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks
- **Web Technologies:** Web Development, Web design
- **Operating Systems:** Linux, macOS, Windows

EXPERIENCE

Paytm Services Pvt Ltd

JUN 2026 - PRESENT

Software Engineer | Internship

- Developing scalable backend services and REST APIs using Golang and Python.
- Working on production-grade applications and distributed systems.
- Collaborating with engineering teams to improve performance, reliability, and scalability.
- Contributing to software design, development, testing, and deployment workflows.

Certificate:

AI Agent Development Intern | Simplilearn

APR 2026 - JUN 2026

- Developed AI agents and multi-step workflows using LangGraph and LangChain.
- Built LLM-powered applications leveraging RAG pipelines and prompt engineering techniques.
- Integrated OpenAI and Gemini models for intelligent automation and conversational AI use cases.
- Worked on orchestration, context management, and tool integration for AI systems.

Web Development Intern | Great Learning

APR 2025 - JUN 2025

- Developed responsive web applications using modern web technologies.
- Built REST API integrations and dynamic user interfaces.
- Improved application performance and user experience through optimized frontend implementations.

EDUCATION

Jharkhand University Technology (JUT), Ranchi

Bachelor of Technology, Computer Science and Engineering

2024 - 2028
